---

**HOW MUCH WILL I NEED?**

- **Furniture & Mattresses**
  - A 16 oz. bottle treats small to medium-sized furniture and other household items.
- **Entire Home & Facilities**
  - When disinfecting entire rooms and complete sets of furniture, use one gallon. One gallon treats approximately 1500 sq. ft.

---

**HOW TO USE STERIFAB**

**Pre-Application**
- Sterifab is ready to use and does not require any dilution or preparation.
- Please be sure to shake well before use.
- Clean all surfaces and objects thoroughly before treatment.

**During Application**
- Spray surfaces generously to provide a fine mist.
- When using either the Continuous Action or Trigger Sprayer stand one foot from the surface being sprayed.

**Post-Application**
- Allow treated items or surfaces to dry before use.
- Hard surfaces may be wiped dry after 15 minutes.

---

**IMPORTANT**

The above are estimates. Yields may vary due to the type of sprayer and spraying form.

Sterifab should never be sprayed on people, animals, clothing, shoes or cooking vessels.

Sterifab can be applied to almost all surfaces (non-living) surfaces treated wood surfaces.
